

Environmental Policy Statement

B&C Joinery Services is committed to ensuring that best practice techniques are used to ensure that the environmental impact of all works carried out by the company is kept to an absolute minimum and that all relevant legislation is complied with at all times.

To achieve these objectives we will:-

- Conserve natural resources by minimising waste and promoting a philosophy of prevention, reduction and reuse amongst our employees.
- Where possible we will always promote and procure timber from suppliers who purchase from sustainable sources who act within a recognized organization such as FSC or PEFC.
- We do not handle any timber covered under the C.I.T.E.S. list of endangered species.
- Inform all subcontractors and suppliers of our environmental policy and actively seek their co-operation.
- Develop, implement, monitor and maintain an effective environmental management System.
- Ensure that the storage and disposal of waste is undertaken in a safe and secure manner and conforms with all current legislation.
- Minimise the use of ozone depleting substances in our operations.
- Develop, implement and maintain an effective monitoring programme.
- Ensure that the minimum of energy is used with maximum efficiency.

Signed

Edward Barker (Proprietor)
